PopPeas are a popped pea chips with an Italian herb flavour.

PopPeas is a 100% vegetable product, since this snack is made with a mixture of yellow peas, dried mushrooms, dried basil, olive oil, and an Italian herb and spice mix. Yellow pea flower is a great vegetable source of protein. The mushrooms are treated with UV light, making them a natural source of vitamin D, whereas basil is a great source of calcium. The ingredients are mixed with a bit of water, after which they are popped in hot air. Since PopPeas are not fried in oil they are a low-fat, yet tasty and crunchy, alternative to regular chips varieties. PopPeas are coated with a delicious Italian herbs and spice mix. A guilt-free savoury snack boosting your protein, calcium and vitamin D intake, while having an incredible taste and crunchy bite.
