

Ronald Visschers

Dr. Ronald W. Visschers (21-5-1965) is the Managing Director of TiFN since August 2017. He is involved in many aspects of research and innovation for food in public-private partnerships, including the Sustainable Food Initiative (www.sfifood.nl) and the World Food Center Research Program.

Ronald completed his study in biology in 1987 and his PhD in BioPhysics in 1992 (Vrije Universiteit, Amsterdam). He received an EMBO fellowship at University of Pennsylvania in Philadelphia, and an NWO-PULS fellowship from the Dutch Organisation for Scientific Research (NWO). Since 1999 he was employed by NIZO food research (www.nizo.nl) and a project leader for Wageningen Center for Food Sciences. From 2008 until 2018 Ronald was employed by TNO and responsible for the food quality and production strategic program.
